A note before you begin

These recipes are not a diet. They are not a programme. They are what I actually did, written down for those who are ready for their own return.

Each preparation in this collection can be made from simple, accessible ingredients. Most are available at any South African grocery store or market. Nothing here requires expensive equipment or specialist knowledge. What it requires is consistency, and the willingness to choose yourself, one preparation at a time.

Use this alongside the 30-Day Whole Food Reset Plan for the full protocol, or work through one bundle at a time, starting wherever your body is asking you to begin.

Rooted in truth. Guided by experience.

A note on movement

This programme was never designed as a weight loss plan. The weight loss was incidental — an unexpected result of a decision that was spiritual before it was physical. Because of that, I was not prepared for what rapid weight loss can do to the skin. Move your body. Not to burn calories — but to keep the skin firm and elastic as the body changes. Walking, stretching, dancing — whatever feels natural. Even 20 to 30 minutes of intentional movement each day makes a real difference. Start from the first week.

You are becoming. This is the beginning of your journey back to self.

YOU ARE NATURE.

*The healing of the body leads to remembering.
Remembering who you were before the noise.
Before the disconnection. Before you forgot your nature.*
